

BART Bike Pilot

March 18 - 22

Ways to Help Make This Pilot a Success

For this pilot, bikes are not allowed on the first three cars.

If the car is full wait for another train, and do not try to wedge a bike into a crowded car.

Refrain from holding doors to get your bike inside, as this delays the train.

Be mindful of your fellow riders and make sure you are leaving other people adequate space.

When possible, use the designated bike space on the cars that have it.

Yield to pregnant, disabled and elderly passengers.
