Support for Item #8: Twin Peaks Promenade Project – Contract Award

Dear President Anderson and Commissioners,

For over 50 years, the San Francisco Bicycle Coalition has advocated to transform our city streets to safe, just, and livable places by promoting the bicycle for everyday transportation. Our organization strongly supports the Twin Peaks Promenade Project as it will create community space that prioritizes sustainable forms of transportation and more livable streets.

We've met with the project team on numerous occasions over the past few years and appreciate their collaboration and dedication. The Twin Peaks Promenade Project will make it easy and convenient for visitors to arrive by bike and bicycle parking will be provided at all three main arrival points. In total, 14 racks will accommodate 28 bikes across the site. With secure and accessible places to lock up, visitors can confidently leave their bikes and take time to enjoy the new park spaces and hiking trails on foot. By supporting bicycle access, the project encourages active transportation and helps make Twin Peaks a more welcoming and sustainable destination for everyone.

Twin Peaks is an extremely popular destination for people biking in San Francisco and we are excited to see our members and the larger biking community be able to benefit from this project.

The SF Bicycle Coalition encourages the commission to approve the contract.

Sincerely,

A handwritten signature in black ink that reads "Rachel Clyde".

Rachel Clyde
